BEST USE OF SOFT FURNISHINGS & BEST USE OF COLOUR

Marylou Sobel
Interior Design

Judges' comments

"Marylou's use of texture, wallpaper, wood and tribal influences was ambitious, yet she has managed to make a small room a definite feature."

Cameron Warwick

"The use of colour in this room really drew me in. The layering of what is essentially quite a bold palette has been cleverly tempered by a great use of neutrals, while the textures and layers - from the carpet to the sofa fabric - show a sophisticated understanding of materials. The room exudes warmth and instant comfort."

Wendy Rennie, Haymes Paint

"Marylou's design is deliciously textural, sophisticated, warm, rich in colour and detail, yet timeless and restrained."

Dana Tomic Hughes

BEST INDOOR-OUTDOOR CONNECTION

Luke Stanley Architects

BEST USE OF MATERIALS

Williams Burton Leopardi

Judges' comments

"Less is more, and it's what makes this room (centre) work so beautifully. Natural and painted wood panels frame the most beautiful Australian country view."

Kit Kemp

"The clean lines and simplicity of this room enhance the focal point. The beautiful vista beckons and encourages you to live in both environments."

Francesco Novembre, Domo

Judge's comment

"The materials create an interesting and inviting kitchen (left) that complements and embraces the outside feature of the handsome tree. The consideration of handle-less design and use of colours and textured materials and finishes combine to result in a beautiful space." *Kylie Peterson, Blum Australia*
